

PUBLIC WORKS

Project Fact Sheet

Cameo Shores Pavement Reconstruction

ABOUT THIS PROJECT

This project involves rehabilitating the asphalt pavement within the Cameo Shores Community. Deteriorated concrete improvements will also be reconstructed.

- Project Length: 17,000 Feet
- Roadway Area: 598,000 Square Feet
- Estimated Project Cost: \$3.5 million

BENEFITS

The project is designed to restore the pavement condition.

IMPACTS

Construction will be scheduled in multiple stages to minimize impacts to residents. Traffic handling will include brief roadway closures to minimize disrupting traffic as much as possible and to ensure safe working conditions.
